LOST – CAN YOU FIND MY CAR?

Here is the information I have on my car. It is a 1972 Plymouth Satellite Sebring. At the time I owned her, she had a factory black paint job, white ¼ vinyl top and blue vinyl interior. Carpet was in very poor condition but the seats, dash, door panels and headliner were all in relatively good shape. Had a small aftermarket “racing wheel” (one you could get at AutoZone) and had Keystone Raider mag wheels. Included photos of her side and front with this email – VIN ends with 3442. Was built in St. Louis, MO in 1972. Loved to see my old “Blackie” again..who, by this time, may not actually be black anymore. If she’s for sale...even better!! Appreciate any info on her and wish you and your members the very best. Jason Harris, Benton, AR

The Eisenhower interstate system requires that one mile in every five must be straight. These straight sections are usable as airstrips in times of war or other emergencies. Thanks, Carolyn
