DENNY LUKE COOKOUT NOT RAINED OUT!!

This time there wasn't a cloud in the sky and temp was perfect for the dozen who were able to take their old cars to the mountain and attend this fun event. FSAAC was represented by the Hallsteds, Plunketts, Kelleys, Johnsons, Barnes, Gary DeArmond and T. W. Brown.

When we got to the top we thought we were already at the cook-out, but soon discovered the Hallsteds' "A" pickup was hot as a stove. Steam was rolling out so black we thought Denny had burned the burgers! We couldn't keep up with them on the way up with our 289 Ford, we were really rolling weren't we Bill? Pat was right when she said you were speeding, wasn't she? True to form, the old "A" drank some water after she cooled off and rolled right into Denny's like a champ.

Gary brought the Packard in as far as the entrance before he experienced vapor-lock. Gary, is it possible you were a little heavy-footed too?

Food was great and what can you say about the backdrop? I'd settled for a glass of Kool-aid and a Twinkie just to sit and enjoy that view. Everyone enjoyed looking over the toys – lots to see there.

Thanks a million Denny for your hospitality and expertise in showing everyone a nice time.. Thanks CARolyn

MICHAEL FERRIS thanked all for the good turnout of vehicles for filming at Clayton Expressway.
